Using the Arts to Build Cultural Bridges

Come together for multi-generational workshops intended for anyone 7th grade or older who would like to tell their story through art. Harness the arts to support racial equity and build community in our county.

In this fun and inspiring workshop, professional artists will teach participants how to tell their personal stories through storytelling, slam poetry, hip-hop, and visual arts. Participants will transform funny, dramatic, or heart-wrenching moments from their lives into a short performance or pop-up art exhibit.

Workshops held on April 14, 28 and May 12 at the East County Community Center.
