QUILT ACTIVITY (AGE 10+)

Now that your child has learned all about quilt techniques, they can test their knowledge with this matching activity, using the Bursting Star quilt pattern.

1. Print this document and cut out the shapes of the SECOND page by cutting along the black lines. Mix up the shapes in a pile.
2. Have your child arrange them together by pairing KEY TERMS with definitions, and matching shapes (triangles, squares, stars, and hearts) next to one another. Your child can use the Bursting Star pattern on this page as a guide. Have them make sure all sides match the right definition, key term, or shape.
3. Check the answers against this original worksheet.
